Glory to God in the highest; and on earth peace to men of good will (Luke 2:14). I wanted to inform our friends and supporters about the current efforts of our organization, and the progress recently made in the critical work of helping save souls. By virtue of the grace of God and the donations we've received, over the last five years we've reached tens of millions of people. We have distributed more than a million copies of our DVD programs and books. We do not endeavor to make any money on the materials we offer. In fact, as far as we know, there is no religious organization in the world that offers their DVDs or books for lower prices than we do. (We also release new projects, which often contain years of research, for free online.) The extremely low cost of our materials facilitates a uniquely wide dissemination of this crucial information.

In addition to our duties of state, over the previous few years most of our apostolate's efforts have been dedicated to filling orders, responding to queries from readers and viewers, updating our English and Spanish websites, coordinating and executing advertising programs (which is more time-consuming than one might think), and preparing for and producing new videos for our English and Spanish Youtube channels. Millions have come to our website; and our English Youtube channel has more total video views than any other channel in the world that purports to be Catholic.

We have also run numerous national radio, internet, and television advertisements. In the last few months alone (not counting internet ads), we spent over \$86,000 airing national television ads. Our 30 second ad offering our \$10.00 package was shown on *Fox News*, *Fox Business*, *The Weather Channel*, *ESPN*, *MLB Network*, *NFL Network*, *NBA TV*, *Golf Channel*, *Home and Garden*, *Do-It-Yourself Network*, and others. From this effort alone, within the last few months thousands of new people placed an order for our introductory package of information. Our \$10.00 introductory package includes our book, *The Bible Proves the Teachings of the Catholic Church*, our book on Padre Pio, our book exposing UFOs, and our new 4 in 1 DVD which contains critical video programs covering: *The Third Secret of Fatima*, *Creationism*, *Supernatural and Biblical Miracles*, *Prophecy*, *the Shroud of Turin*, *the Four Last Things and What Has Really Happened to the Catholic Church*. It's the best small package of information available in the world to bring non-Catholics to the faith and to give those who profess to be Catholic the information they need concerning what really happened to the Catholic Church. Once the person has received and reviewed this small package of information, they will hopefully obtain the large \$20.00 package, and consult the information on the website. This large package provides much more detailed information and documentation on exactly what has happened to the Catholic Church.

We have been extremely aggressive in our efforts to reach as many people as possible with the information on real Catholicism. In fact, we have been using almost all of the funds we have received to reach new people. However, we are unfortunately at the point where we must dramatically scale back on our advertising outreach.

The only way we can continue to run advertisements and promote the material in the media described above is by receiving donations. Without the donations, there is no way to fund the television ads, the printing and duplication of material, etc. With more funding from those with the financial wherewithal, we could *easily* reach tens of millions more. (It pains us to think of the money sinfully wasted by people on heretical and false traditionalist groups, which not only lack the true faith and correct positions but the outreach our apostolate can offer). These financial means would greatly assist the mission to save souls. The more funding we receive, the more people will be reached with the critical information on the one true Catholic faith – the faith which is necessary for salvation. The crisis of these last days is indeed a crisis of faith. With the Great Apostasy in place and spreading, and the time short, upholding, spreading

and teaching the true faith is the most important work in which we can be engaged. This of course includes informing people how to save their souls once they have embraced the true faith – information abundantly covered in our material. That’s why the circulation of this material is so important.

Our information has the power to change lives. Many conversions have taken place after people have received our information. As many of you know, on our website we frequently post testimonials we receive from people telling us how they converted or how the material changed their lives. The sad fact of these last days is that if people don’t get our information, they are not going to see the truth about the Church in our time. That’s why the Devil does not want people to financially support our apostolate. We have the information, but in order to reach new souls – countless people lost in the indifference of the modern world and the emptiness, confusion and darkness of the Vatican II sect – we must continue to invest in things like national TV ads, etc. For these reasons, your tax-deductible donation to assist the spread of the true faith is so important in helping reach new people. The people who have supported us have helped us reach those who have been reached thus far. Future support will enable more people, who might otherwise never see the information, the opportunity to come to the knowledge of the truth. This is the mission of our apostolate and we want to reach as many people as possible.

Sincerely,

Bro. Michael Dimond, O.S.B.  
Superior

PS: We have three new DVDs now available: Bro. Jerome Torres, the newest member of our community, has translated our most popular 4 in 1 DVD into Spanish. We also have a new DVD covering various Catholic subjects. This new DVD on various Catholic subjects includes some of our extremely important recent videos (including numerous hour-long blockbusters on the most crucial and controversial issues in our time), which until now were only available online. We will also be offering an amazing new DVD that exposes GMOs. These DVDs will be available to order in the next few weeks.
